DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Bonny et al. Bonny et al. teaches the claimed invention including a hydroforming die 2/3, hydroforming press/housing 8/8, a fastener assembly comprising a fastener having a shaft 10 with a shoulder/head generally at 11, a spacer 12 disposed between die 2/3 and housing 8/8, and a slot (considered to be a keyhole structure in the lower die 3 with both a wider and narrower portions and a extending wall surfaces, see Fig. 4; the wider portion housing the shoulder 11) in the die at 16 for receiving the head/shoulder 11. Regarding claims 3 and 17, see column 6, lines 14/15 and the recitation of a threaded end which is mated to a threaded bore or nut. Regarding claims 11 and 18, the member 7 is considered to be the tube engaging structure. Regarding claims 9 and 10, see the embodiment of Fig. 2. with the projecting structures on either side of members 11.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
